

**“Only Teo offers a UC solution that enables you to optimize your businesses operations, super charge your user base and leverage a communications tool that is truly unified.”**

## **Teo 4101 IP Phone**

The Teo IP Phone 4101 is a full-featured, value-priced model that is designed for users that require a reliable phone with basic features. This is an ideal choice for retail locations, lobby phones, hotel rooms, and call centers. With a bright backlit display, access to only one line, and dedicated speed dial keys, the IP Phone 4101 is a great phone at a great price. Like the IP Phone 7810, the IP Phone 4101 incorporates TLS and SRTP encryption and supports both IPv4 and IPv6 transport.
